*National Society of Professional Engineers*

**Service Organizations:**

*Pennsylvania Society of Professional Engineers, Mathcounts 2001-Current*

**Summary of Experience:**

Mr. Matson is the Municipal Group Manager in McCormick Taylor's Exton office. Kevin has over 15 years of experience in design and municipal engineering services. His current responsibilities include daily team operations, quality control of municipal projects, public meeting attendance, proposal management, creative design, oversight of client contacts and client satisfaction. His experience with Subdivision and Land Development includes both review and design of major applications. In addition, Mr. Matson has prepared plans and specifications for municipal projects such as redevelopment of Township Properties, Township Buildings, Parks and Facilities as well as private residential and commercial land development.

**Detailed Experience:**

**Municipal Group Manager for Westtown Township, West Brandywine Township, Tredyffrin Township, Pocopson Township, Chester County, PA; Media Borough, Middletown Township, Delaware County, PA:**

Mr. Matson serves as McCormick Taylor's Municipal Group Manager in the Exton office and oversees our appointments of Township Engineer and Borough Engineer for several Townships and Boroughs throughout Chester and Delaware County, PA. Mr. Matson oversees other Municipal Engineers within the Exton office who serve as the lead roles / primary contacts for these appointments to ensure these individuals adequately address the needs of the governing municipalities. Kevin's responsibilities include quality control plan management, team administration, constructive criticism / employee development, design team oversight, municipal project management, fee schedule / billing oversight, and client satisfaction. Kevin regularly leads the Municipal Team meetings to review workload projects, management of the team's current reviews and standards, meeting attendance coverage, and team development. Mr. Matson is the primary point of contact for Municipal Services throughout the McCormick Taylor and is tasked with team and client sustainability.

**Appointed Borough Engineer, Media Borough, Delaware County, PA (2016-Current)** – Mr. Matson was appointed the Borough Engineer in Media Borough in 2016. He served on the Planning Commission for 9 years as a member and a Chairman and resigned from the Planning Commission to accept the Borough Engineer position. Though his experience on the Planning Commission, Kevin was involved and led the discussion of rewriting of the Comprehensive Plan which was adopted in 2015. Mr. Matson is responsible for the oversight of a collaborative team which completes regular municipal designs, inspections, and Subdivision and Land Development reviews on behalf of the Borough. Kevin prepares monthly Engineer's Reports and maintains complete transparency with the Borough through regular open communication with the Borough's Staff and Committees. Kevin regularly attends the Borough Planning Commission meetings to ensure applications are adequately addressed to meet the needs of the Borough.

**Brandywine Summit, Commercial Land Development, Chadds Ford, Delaware County, PA** – Project engineer responsible for preparation, submission and approval of subdivision / land development plans for 66,000 square foot office complex. Design included site layout and geometry, grading, retaining wall design, stormwater management facilities, driveway access and HOP application, erosion and sediment control measures, sanitary and storm design and profiles. Site contained environmentally sensitive areas which required close coordination with PA DCNR, DCCD and PA PHMC.
